

Organise a party!

Below there is a shopping list with all items you may need for a party. Your challenge today is that you have £100 to spend for items that you could need. You may not have enough money for every single item, you may want to buy more than one of a certain item. What can you get with £100?

You can add up the items you will need to see how much they come to or you can subtract the amounts from the total amount of money that you have.

Make your own shopping list of things you will buy.
